

Regenit®

Vacuum salt tablets for water softening

- ✓ EN 973 Typ A
- ✓ NF Norm
- ✓ Codex Alimentarius

Field of application

Water softening via ion exchange is the best way to obtain soft water. Regenit® vacuum salt tablets satisfy the process and system requirements necessary for water softeners based on ion exchanger resins and also offer superlative product characteristics. The result is efficient, problem-free water softening with all the advantages, including less limescale build-up and a longer service life for installations and equipment.

- ◆ High purity
- ◆ Even and residue-free dissolving
- ◆ Ideal tablet shape
- ◆ For home and commercial use

Regenit®

Vacuum salt tablets for water softening

Product range

Packaging size: 25 kg bag
(40 x 25 kg
per pallet)

Type of packaging: PE bag

GTIN: 25 kg:
4003885180009

We would be happy to provide you
with a sample.

Product quality

Choosing the right regeneration salt is vitally important for the performance and reliability of the ion exchanger resin in water softening systems. By satisfying the European EN 973 Type A, Codex Alimentarius and NF standards, Regenit® vacuum salt tablets provide the ideal means for producing soft water.

Product properties

Regenit® salt tablets are made from ultra-pure, fully soluble vacuum salt, enabling them to guarantee efficient and problem-free operation of the water softening system. The special shape of Regenit® salt tablets ensures maximum solubility and dissolving speed.

Production process

Regenit® salt tablets are made from the purest vacuum salt and compacted at high pressure under controlled conditions. This process is intended to prevent the tablet salt from decaying prematurely.

Certification

esco production facilities hold valid certification to EN ISO 9001. Strict compliance with hygiene requirements is confirmed by the certified HACCP system.

Service

We offer our customers first-class service, guaranteed consistently high product quality and a reliable international delivery.

The company

esco – european salt company is the leading salt producer in Europe and exports significant quantities overseas. Water softening products are constantly being developed and exceed legal requirements. This is made possible by the company's extensive experience in the water softening products market.
